# INSTRUCTION

1) Insert one 1.5 volt "AA" batteries (Alkaline Batteries are recommended) in the battery compartment. Be sure that the (+) positive and (-) negative terminals correctly match with the symbols on the battery compartment.
   The battery should be replaced every 6 months.

2) Set hands to correct time by rotating the hand set knob on the rear of the movement.

3) Remove the tape to release the pendulum hanger.

4) Attach pendulum on to pendulum hanger.

5) Gently push pendulum to swing.

**Important :**
*Clock must be hung on a flat, vertical surface. Ensure back plate of clock is flat against the wall after installation, otherwise pendulum might not function properly.*

**Remarks :**
*Please avoid placing the instrument exposed to direct sunlight for extended period of time as this will affect the functionality and the outlook of Your new time piece.*
